The Museum of Sound is nomadic and in flux and is rooted in the essence of sound and listening.

Tommi Grönlund and Rikke Lundgreen created the initiative while preparing the exhibition "Mika Vainio 50Hz" at the Museum of Contemporary Art Kiasma in Helsinki, Autumn 2020.

The late Mika Vainio (1963-2017) had a habit of inviting friends to his home, to play them music recordings in silence, with full concentration.

In the series of listening rooms, the aim is to create a similar situation, an empty room full of sound.

Mika Vainio had a very active and passionate relation to listening. He believed that everyone establishes their own relation to the sound they hear. Music and sound often triggers emotional responses and the experience of sound is often defined by subjective experience and memories.
